BLOOMFIELD TOWNSHIP 2018 SAFETY PATH PROGRAM

The Township's contractor, **Italia Construction**, has started construction on this year's concrete safety path program. Work is scheduled to commence on Lincoln Drive and Telegraph Road in the near future.

Prior to the start of actual construction, the centerline of the proposed path will be marked with wooden stakes at certain intervals. The path will be placed within the Public Road Right of Way, and not on your private property unless prior easement arrangements have been made. The Township will be responsible for all construction costs and future maintenance of the proposed path.

Local traffic will be maintained at all times during construction with the exception of possible minor interruptions. Residents will be notified prior to any work involving their driveways. Please obey the posted construction signs, and observe and respect the work crews in the area during construction. Every effort will be made to minimize any inconvenience to all area property owners and patrons. Your patience and cooperation is appreciated during this time.

If you have concerns regarding the location of the path or special circumstances pertaining to construction, please feel free to call the Construction Observer listed below, and he will make every attempt to assist you.
