A Non-Use or dimensional Variance is a variance from any standard requirement of the ordinance such as deviation from setbacks, parking, landscaping, density, height or bulk regulations. A non-use or dimensional variance requires you to prove practical difficulty. The standards the Zoning Board of Appeals will use in determining whether a practical difficulty exists require you to provide responses to the following questions. Additional information may be attached.

1. Why would strict compliance with the zoning ordinance prevent you from using your property for a permitted purpose or be unnecessarily burdensome?

2. Why is your variance request fair to other property owners?

3. Would a lesser variance than you are requesting allow you to use the property as desired?

4. Describe the circumstances unique to your property (that are not generally applicable in the immediate area or to other properties in the same zoning district), which create the need for the variance.

5. Explain why the need for the requested variance is not self created (due to the actions of the applicant, owner, or their predecessors).

PERMISSION REQUEST FOR ACCESSORY STRUCTURES/USES QUESTIONNAIRE

Section 42-5.1 of the Bloomfield Township Zoning Ordinance provides that accessory structures proposed to be added to a lot containing an already existing principal building or use shall be subject to review and approval of the Zoning Board of Appeals. Please note, structures meeting provisions under General Exceptions, Section 42-3.10 are exempt from this requirement. Specifically, the Board of Zoning Appeals when considering whether to approve an accessory structure that is proposed shall apply the standards that are set forth in Section 42-7.6. All uses as listed in any district requiring Board approval for a permit shall be of such location, size, and character that, in general, it will be in harmony with the appropriate and orderly development of adjacent properties. The standards the Zoning Board of Appeals will use in determining whether an accessory structure should be approved require you to provide responses to the following questions. Additional information may be attached.

1. What is the nature and intensity of the use and how will it affect adjoining properties?

____________________________________________________________________________________

2. How will the size, layout, and its relation to pedestrian and vehicular traffic to and from the use, cause disruption to adjacent properties?

____________________________________________________________________________________

3. How will the location and height of buildings; the location, nature and height of walls, fences; and the nature and extent of landscaping of the site be such that it will not negatively impact adjacent land and buildings?

____________________________________________________________________________________

4. How will the nature, location, size, and site layout be harmonious to the neighborhood?

____________________________________________________________________________________

5. How will the location, size, intensity, and site layout be objectionable to nearby dwellings, by reasons of noise, fumes or flash of lights to a greater degree than is normal, or interfere with adequate supply of light or air, or increase the danger of fire or otherwise endanger the public safety?

WHAT TO EXPECT AFTER SUBMITTAL OF YOUR APPLICATION

- A Township Planning Division staff member will contact you if any additional information is required for your application; otherwise your application is complete for the Board’s consideration.
- If you have not done so already, please contact your homeowners association as soon as possible, to allow them an opportunity to review your plans prior to the public meeting. You may also contact adjoining property owners to allow them to review your plans, and see if they will provide you a letter or email of support (forward to Planning staff to be added to your application file).
- If the need for any revisions to your application or plans should arise, please contact Planning staff immediately so that we can determine if changes can be addressed at the same meeting.
- Fifteen days prior to the public hearing, legal notices are mailed to all property owners and homeowner’s associations within 500 ft. of the subject property.
- An agenda will be posted to the Township’s website the Thursday prior to the public hearing. Check this if you would like to see the order of the agenda: https://bloomfieldtwpmi.documents-on-demand.com/
- The night of the public hearing, the ZBA chairman will ask each applicant to come to the podium and briefly explain their request. Be prepared to answer any questions from the Board. It is not necessary to bring your plans since staff will have a Powerpoint presentation containing the plans.
- The ZBA can approve, deny, or table your request (or any portion of it) to the next meeting.
- If approved, remember to apply for required permits with the Building Division within the timeframe noted in the ZBA’s motion. You do not need documentation showing ZBA approval since this is handled internally.

Planning staff is here to assist you through this process. If you should have any questions, please contact Jennifer (jmacdonald@bloomfieldtwp.org) or Andrea (abibby@bloomfieldtwp.org) at 248.433.7795.
